

# BURNALL SPARES & ACCESSORIES

000081 Rotary Fire Ashbox

For use with 16" and 18" Rotary Ashbox Fires

000077 16" Burnall Grate (pair)

000177 18" Burnall Grate (pair)

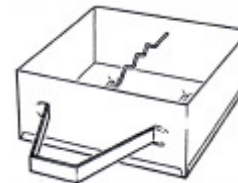

000277 20" Burnall Grate (pair)

000377 22" Burnall Grate (pair)

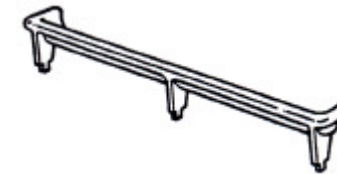

000477 24" Burnall Grate (pair)

For use with All Burnall Fires 16" - 24"

000180 Outside Ashbox

For use with Outside Ashbox Fires 16" - 24"

Fits on top of the firefront to retain the coal within the firebed

001003 16" Deepening Bar

001103 18" Deepening Bar

001203 20" Deepening Bar

001303 22" Deepening Bar

001403 24" Deepening Bar

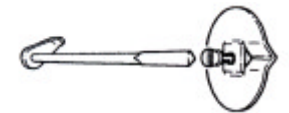

000079 16" Lift Out Ashbox

000179 18" - 24" Lift Out Ashbox

For use with All Lift Out Ashbox Fires 16" - 24"

000914 Damper Valve

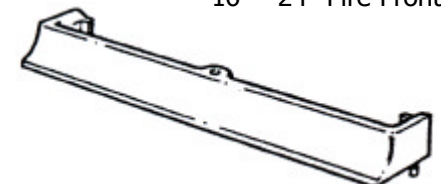

000903 Damper Rod LOA

000904 Damper Rod OAP

Used to control the airflow to the firebed

\*16" - 24" Fire Front

For use with Outside and Lift Out Ashbox Fires  
Available in Copper Lustre, Pewter Lustre, or  
Stainless Steel (see following section for part numbers)

\* See following section for code numbers on following items.

000951 Back Air Adaptor

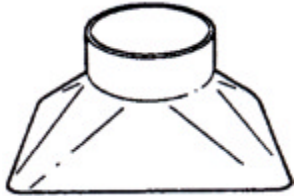

For use where there is a chimney on an outside wall, see Page 6 for information.

000962 Outside Draught Collector

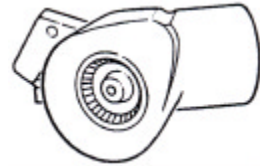

For use on an outside wall, see page 6.

001971 Inside Draught Collector

Used in conjunction with outside draught collector.

000950 Burnall Fire Fan

For added Draught when there is insufficient airflow. (Often used with solid floors).

000952 Universal Smoke Trap

Prevents blow back of smoke if this is a problem with your Burnall

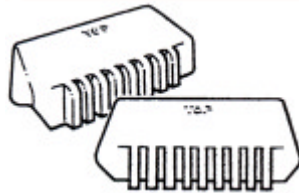

000958 16" Overnight Burning Plate

000959 18" Overnight Burning Plate

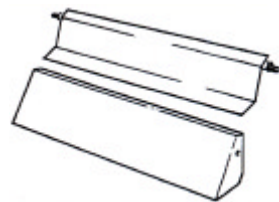

Fits on to the front of the Burnall, deepening the fire bed and allowing overnight burning. Especially useful with smokeless fuel.

000957 Side Reducers

Designed to reduce the burning area of the fire to minimise fuel usage during periods of low heat requirements.

Burnall Canopy

Can be installed to reduce the height of the fire. Available in simulated copper or stainless steel

000968 Tower Fire Guard (Copper Lustre)

000969 Tower Fire Guard (Pewter Lustre)

An additional decorative front for any size of Burnall Fire

**000973** 16" Copper Canopy

**000974** 18" Copper Canopy

**000975** 20" Copper Canopy

**000976** 22" Copper Canopy

**000977** 24" Copper Canopy

**000978** 16" Stainless Steel Canopy

**000979** 18" Stainless Steel Canopy

**000980** 20" Stainless Steel Canopy

**000981** 22" Stainless Steel Canopy

**000982** 24" Stainless Steel Canopy

**001003** 16" Deepening Bar

**001004** 16" Top Basket LOA

**001005** 16" Burnall Firebox (chamber)

**001083** 16" Raised Economiser

**001103** 18" Deepening Bar

**001104** 18" Top Basket LOA

**001105** 18" Burnall Firebox (chamber)

**001183** 18" Raised Economiser

**001203** 20" Deepening Bar

**001204** 20" Top Basket LOA

**001303** 22" Deepening Bar

**001304** 22" Top Basket LOA

**001403** 24" Deepening Bar

**001607** DOB Saddle dressed Casting

**001610** DOB Damper Blade

**001614** 16" DOB Damper Frame

**001913** Nozzle

**001916** Lifting Key

**001950** Burnall Side Reducer

**001969** Tool Deepening Plate

**001971** Inside Draught Collector

**001986** Universal Blade

**001987** 9" x 6" Vent Brick

**002041** 16" DOB Damper Screw

**002044** Mica Flap

**002146** Resistor TC 1341000 CH

**003606** 16" DOB B/B tappings

**003607** 18" DOB B/B R/H tappings

**003608** 16" DOB B/B tappings

**003609** 18" DOB B/B R/H tappings

**003610** 16" DOB B/B L/H tappings

**003611** 18" DOB B/B L/H tappings

**003904** Side Cheek LH 63 (standard)

**003905** Side Cheek RH 63 (standard)

**003913** Four Piece Fireback 63 (16" - 18")

**003914** Four Piece Fireback (20" - 24")

**003915** Three Piece Fireback 63 (16" - 18")

**003916** Three Piece Large Fireback (20" - 24")

**003920** 3' x 3" Air Intake Pipe

**003921** 2' x 3" Air Intake Pipe

**003922** 6' x 3" Air Intake Pipe

**003923** 90° Bend

**003924** 110° Bend

**003925** 135° Bend

**003928** LH Extended Sidecheek 66

**003929** RH Extended Sidecheek 66

**003932** Sidecheeks pair 63

**003937** Top Back Brick type 63 (16" - 18")

**003938** Bottom Back Brick type 63 (16" - 18")

**003939** Large Top Back Brick (20" - 24")

**003940** Large Bottom Back Brick (20" - 24")

**003943** Four Piece Fireback with Extended Sides

**003944** Pairs of Extended Sidecheeks

**003952** Packet of Slag Wool Pads (pair)

**003974** Four Piece Fireback and Extended Sidecheeks

**003976** Set of 40 Bull Nosed Baby Bricks

**003977** Set of 60 Bull Nosed Baby Bricks

**003978** Set of 40 Bevelled Baby Bricks

**003979** Set of 60 Bevelled Baby Bricks

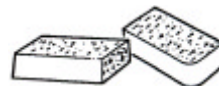

**010036** Fantom Ashbox

**011005** Fantom Grate Bottom

\*Bevelled Baby Bricks /  
\*Bullnosed Baby Bricks

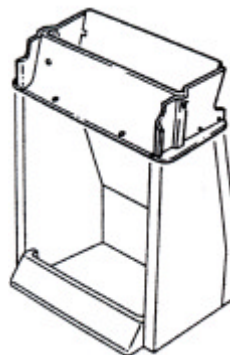

For use in the building of the fireback. Alternative to the 4-piece fireback.

\*4 piece Fireback

Set of bricks that build up the fire opening.

000604 Throat Unit

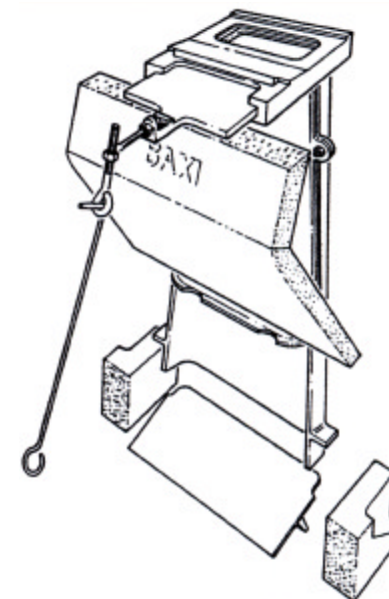

Suitable for use when there is no back boiler. Controls flow of warm air passing through the chimney allowing:

1. Optimum control and efficiency.
2. Varying demands of chimney to be catered for.
3. Chimney to be closed when fire is not in use.

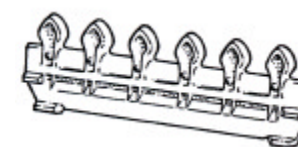

\* See following section for code numbers on following items.

000602 DOB Boiler Flue Set

For use with domestic output boilers.

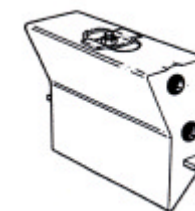

001083 Raised Economiser 16"  
001183 Raised Economiser 18"

Reduces the burning area of the fire and hence this means economic use of fuel.

The economiser can only be used with the standard grate bottom not the Burnall grate bottom. The standard grate bottom is a spares item for the now obsolete fire and is distinguished by having narrower slats than the Burnall grate bottom. see pic above.

\* DOB Boiler

Fitted with your Burnall, this highly efficient boiler gives hot water and can heat a towel rail or small bathroom radiator. It fits any size of Burnall fire.
