Subject: New High Efficiency fires

Hi,

We are now bringing in a valor glass fronted high efficient fire.
The fire is designed to fit with the Solaris & Lunar frames (with an Aurora version due to follow shortly)

The fire is:

- Glass fronted
- Suits Class1, class2 & precast flues (dependent on suitable depth)
- Slide control only (the Aurora frame is being modified at the moment)
- Coal only
- Nat Gas only
- 3 boxes – Engine box, frame, Burner tray trim (this hides all the workings beneath the fire)
- Made by Valor & has the Baxi heat team field back up
- Selling price of £299, if a customer commits to a live display, we will set up with an ongoing discount of 10%
- Efficiency is around 86%

The fires will be available around the beginning of Feb

If you have any further questions, please ask

Thanks

Andrew

Hi,

No LPG kit, Nat gas only

Ron sent me an e-mail to say that he had quoted Venture marble!

Good week?

Andrew

Hi you

Will there be an LPG kit for it? What happened to my granite prices for Venture? Are you neglecting me!!

Di
